

FLOQAST

Created by accountants for accountants to help accounting teams work smarter, not harder.

FloQast automates common accounting workflows, helping to streamline and make teams more efficient. Whether automating reconciliations, documentation requests, or other workflows such as the month-end close, financial reporting, or payroll, FloQast's suite of easy-to-use and quick-to-deploy solutions enhance the way accounting teams already work.

- ✓ **Streamline and Centralize the Close**
- ✓ **Ensure Audit Readiness**
- ✓ **Automate Tedious Tie-Outs and Reconciliations**

ORGANIZE

FloQast is your single place to manage the month-end close, aligning people, processes, and documents in one collaborative platform. Grant visibility to each of your team members to see the whole close, not just their individual piece.

COLLABORATE

Improve team communication and accountability to ensure deadlines are met and that you're always audit-ready. Attach review notes, find opportunities for improvement through analytics, and be notified automatically when items are ready for review or go out of balance.

AUTOMATE

Eliminate manual ticking and tying, and automatically roll forward your checklist, reconciliations, and supporting documents. Leverage the power of artificial intelligence to match transactions and eliminate your most tedious reconciliations. Accelerate the information request process to deliver faster time to close with increased visibility.

INTEGRATE

Seamlessly integrate your general ledger with your Excel workbooks in your cloud storage provider of choice. FloQast layers on top of your existing processes, making setup easy and increasing team adoption thanks to minimal process change. You'll be happy and your team will be happy.

OPTIMIZE YOUR ACCOUNTING WORKFLOW

We ♥ Excel, Too

Keep using Excel and work the way you're used to — but with the added accuracy and power of close management software.

Seamless with your GL

Whether you use a cloud ERP like Oracle NetSuite or Sage Intacct, or an on-premise one like Microsoft, SAP, Oracle, or Workday, FloQast works hand-in-glove with your GL.

Keep Your Data

Your sensitive financial data is kept secure, housed in your own document storage systems — not ours.

Multi-Currency Support

FloQast supports all major currencies so you can manage the month end close seamlessly across borders.

1 MONTH SETUP*

10 MONTHS PAYBACK**

TRUSTED BY HUNDREDS OF ACCOUNTING TEAMS

“FloQast is an extremely effective tool that helps us expedite our close process allowing the team to keep pace with our massive growth.”

BRANDT KUCHARSKI
Chief Account Officer
